

Sonnette™ Cellular Roller Shades

HunterDouglas 

Contemporary, Functional Design

Sonnette™ Cellular Roller Shades combine the dynamic, energy-efficient construction of a cellular shade with the clean lines and simplicity of a roller shade.

- Completely unique product category: cellular roller shades.
- Innovative, light-diffusing shape.
- Energy-efficient cellular construction.
- Rich textures and fashion-forward colors available in both semi-opaque and room-darkening opacities.
- Stylish and versatile design.
- Modern, cordless operation with PowerView® Motorization, SoftTouch™ Motorization and LiteRise® systems.
- Selling Sonnette shades is quick and simple! Choose from 4 fabric collections, 48 colors, 2 opacities and 3 operating systems. It's that easy.

Cordless Operation

100% cordless, Sonnette™ Cellular Roller Shades are safe, convenient and easy to use.

SOFTTOUCH™ MOTORIZATION

Our simple battery-powered motorized system enables intuitive wand-controlled operation. Gently pull down on the wand to lower shades, and push up to raise them.

POWerview® MOTORIZATION

This automated motorized system is the ultimate convenience. The PowerView® App and PowerView® Hub enable operation with mobile devices and allow for integration with most home automations systems. Or choose to operate shades on the fly from the artfully designed PowerView® Pebble® Remote or Scene Controller.

LITERISE® OPERATING SYSTEM

Cordless operating system allows homeowners to raise and lower shades with the touch of a hand. Simply push up on the bottom rail or optional handle to raise the shade and pull down to lower it. Your shades stay right where you put them.

Selling Motorization

BENEFITS OF POWerview® MOTORIZATION

- Automated control: create customized Scenes that control all the shades in your home to operate together or in any combination you desire.
- Create Automations that run based on your local sunrise and sunset for the ultimate convenience of automated operation.
- Operate your shades from home or away via the RemoteConnect™ feature on your smartphone or tablet.
- Easily integrate PowerView Motorization with connected devices and third-party automation systems, like the Amazon Alexa or Google Home, for a whole home experience.
- Completely cordless.
- Battery-powered and plug-in power options available.
- Choose from a variety of artfully designed controls that complement your home décor.

BENEFITS OF SOFTTOUCH™ MOTORIZATION

- Simple, click-and-walk-away convenience.
- One favorite position functionality.
- An intuitive combination of traditional operation and motorized convenience—never misplace another remote.
- Battery-powered and plug-in power options available.
- Affordable price-point.
- Completely cordless.

Purposefully Engineered

- Flush end caps for a seamless look.
- Ergonomically designed bottom rail and low profile headrail.
- Color-coordinated painted headrail and bottom rail utilize a sleek, matte finish.
- Familiar, simple installation.

Stylish and Versatile Design

- Colors include the top-sellers from Duette® Honeycomb Shades Elan® collection, Pirouette® Window Shadings Satin and Satin Metallic collections and interior design trends.
- The construction provides soft, radial light transmittance.
- Four fabric collections in 48 trend-setting colors range from versatile neutrals to vibrant hues. All fabrics are available in both semi-opaque and room-darkening options.
 - › **Elan**—This classic texture, inspired by current design trends, offers a natural, clean look that is simple and authentic.
 - › **Elan Metallic**—Subtle and refined, the matte sheen gives an unexpected shimmer to our Elan fabric for a vibrant update.
 - › **Textura**™—The distinctive, clean lines of this textural pattern make for an artfully designed fabric with a contemporary motif, ideal for creating an urban, modern feel.
 - › **Highline**™—Its hazy luminosity and lustrous finish give it a suede-like touch. The subtle, polished effect of this minimalistic fabric elevates any décor.
