

RGO

Navigating the Spaces of the Future

RGO is committed as a trusted resource, to support Alberta as we navigate our way through the now, near and far as we find ourselves returning to the workplace

RIGHT NOW | Businesses are planning how to navigate the return of the workforce with a emphasis on health and safety. RGO has launched a Working Remotely program offering home office solutions allowing for the continuation of day to day operations. With a plan for returning to the office spaces RGO is able to provide cleaning services adhering to new standards.

RECONFIGURE | The RGO team offers clients solutions for changing work spaces and layouts in a manner that provides a long term solution. With the addition of screens, reconfiguration of existing furniture, as well as removal and storage of surplus items, we can provide employees the assurance that personal safety is the utmost of importance as they re-enter the workplace.

REINVENTION | As businesses we have the opportunity to evaluate how we work, how we use spaces, communicate, and integrate technology into the changing workplace. Utilizing past learnings, we have the ability to create smarter cross functional spaces that have are adaptive with minimal disruption to day to day operations.
