Rotary Chairs & Stools

Gesture

Gesture redefines the relationship between you and your chair. Voted best office chair, its 360-degree arms, contoured back and adjustments are designed for all the ways technology shapes your posture.

Product Highlights

Back Support

- Designed with 3D LiveBack and built-in lower back firmness, the contoured backrest encourages movement while keeping the spine supported in its natural s-shape – however you move.

Adjustable Arms

- Adjust through a full range of motion – 360 degrees – mimicking the human arm for comfortable support as you work with multiple tech devices and interfaces.

Leap & Leap Plus

Leap is an ergonomic office chair that lets you dial in a precise fit in all the places you need it most. It's highly intuitive and you'll love the way the seat glides back and forth as you recline, keeping you connected to your work.

Product Highlights

Seat Ergonomics

- Seat includes flexible edges that offer a bit of a bend, right where you need it – providing a pressure-free sit and supporting different sitting styles.

Leap Plus

- Leap Plus offers the same benefits, aesthetic appeal, and functionality of Leap with support for users up to 500 lbs.

Karman

Sit back and let physics do its job. With a proprietary performance textile and impossibly light frame, Steelcase Karman goes beyond leading mesh office chairs to provide effortless comfort.

Product Highlights

Breakthrough Comfort

- Karman's patented hybrid seat is unlike any other. The suspension seat with integrated cushioning provides maximum comfort for as long as you sit. The ultra-light frame flexes to eliminate painful pressure points common in other mesh chairs.

Above and Beyond

- Building upon the same LiveBack® technology of the standard back, the sculpted high back and integrated neck pillow is designed to provide enhanced upper body comfort while helping create more dynamic spaces.

Karman specification details

Think

Our first office chair designed with a weight-activated mechanism – Think does the thinking for you. Designed to meet the growing trend of mobile workers and their needs, Think allows anyone to get comfortable quickly.

Product Highlights

Smart. Simple. Sustainable.

- Designed with fewer parts, Think is up to 95% recyclable by weight and is designed to be easily disassembled in five minutes. Think incorporates more recycled content making up to roughly a third of the chair's weight.

Style Forward

- Choose from a curated collection of back styles and finishes to elevate your space. Including 3D knit, quilted upholstered or upholstered as well as an optional outer back cover. Finish selections include monochromatic neutral color schemes and warm toned metallics.

Series 1

Steelcase Series 1 gives you essential ergonomics and quality at a great value. This high-performance office chair boasts space efficiency, weight-activated controls and an even more sustainable option.

Product Highlights

Take Your Pick

- Select from two ergonomic mesh chair back designs: the original Series 1 3D Microknit Back or Series 1 Air Back.

Adjustment Mechanism

- Responds to your body weight to provide the right amount of back tension as you recline. Includes “boost” offering 20% additional tension for those who need it.

Series 1 specification details

Click on “Series 1 Spec Guide”

Series 2

Steelcase Series 2 offers attainable ergonomic performance with a boost of expression. The geometric, lumbar-focused back design comes in standard or quilted upholstery, or plenty of 3D Microknit or Air back options.

Product Highlights

Back Support

- Air LiveBack technology works through an innovative geometric pattern in the polypropylene back that flexes in two dimensions to encourage movement and support posture changes.

Enhanced Choice

- Choose from standard or quilted upholstered back designs or celebrate the attractive geometric back design without upholstery.

Series 2 specification details

Siento

The Siento chair is all about making you feel good — good when you look at it and even better when you're in it. Created in partnership with architect and product designer, Jorge Pensi, Siento has an honest elegance coupled with sophisticated comfort. Siento offers eco-friendly design and people-friendly ergonomics.

Product Highlights

Back Support

- Adjustable back tension control lets you set the amount of resistance as you recline.

Ergonomic

- Flexible seat edge relieves pressure on the back of the legs as you recline or lean forward.

Rotary Guest & Side Chairs

Cobi

The Cobi office chair by Steelcase was designed to foster collaboration and promote movement, creating a perfect solution for meetings and conference rooms.

Product Highlights

Active Collaboration

- Working with others requires a completely different set of postures and a highly flexible chair. Cobi is ideal for collaborative settings, conference rooms, huddle spaces, education, and more.

Flexible Design

- The flexible Cobi chair promotes movement with its 100% recyclable glass-filled nylon back that adjusts to the body. Its flexible top edge and 270° seat edge support all postures.
